Pune, India | +91-8408897759 | sourav0482@email.com

PROFESSIONAL SUMMARY

Analytical Computer Science student experienced in operations analytics, automated reporting, ETL pipelines, and dashboard development. Skilled at improving processes, building data-driven solutions, and collaborating with stakeholders to enhance business efficiency.

EDUCATION

B.Tech, Computer Science Engineering | Symbiosis Institute of Technology, Pune | 2023–2027

Relevant Coursework: Database Systems, DSA, Statistics and Probability, Software Engineering

TECHNICAL SKILLS

Analytics & Reporting: Excel, SQL, Power BI, Python (Pandas, NumPy)

Automation & ETL: Data pipelines, process automation, reporting workflows

Databases: MongoDB, MySQL, PostgreSQL

Tech: Node.js, Express, Next.js, REST APIs | Git, Postman

Problem Solving: 300+ coding problems | Strong analytical & quantitative skills

PROJECTS

Project Lead – Learning Management System | SeerBharat NGO

- Led 5-member team to deploy secure LMS serving 200+ users
- Built admin dashboards to track engagement and performance metrics
- Automated onboarding/content workflows, reducing manual effort
- Gathered requirements, managed timelines, and handled production support
Tech: Next.js, Express, MongoDB

QuizForge | Automated Quiz Platform

- Designed ETL pipelines to convert PDFs into structured databases
 - Automated 200+ MCQs/day, reducing manual work by 75%
 - Built reporting dashboards to monitor accuracy and usage metrics
 - Implemented validation and filtering to improve reliability and scalability
Tech: MERN, Python, NLP, MongoDB
-

ADDITIONAL EXPERIENCE

- Translated business needs into technical solutions
- Strong communication with non-technical stakeholders
- Comfortable working in fast-paced, unstructured environments
